# Market analysis for Telemedicine Congress 2020

Priya Shetti

Telemedicine services at Sri Ganga Ram Hospital, Delhi. Email: [Priyashetti.6@gmail.com](mailto:Priyashetti.6@gmail.com)

Telemedicine Congress 2020 mainly focuses on Telemedicine, eHealth & Health Informatics, It is now being extensively used in medical and healthcare sectors; Hence telemedicine and medical informatics are expected to grow at a high rate in coming years, which is expected to boost the growth of the medical care technology. In Telemedicine, one transfers the expertise, not the patient. The term telehealth can refer to clinical and non-clinical services such as medical education and clinical research and telemedicine refer only to the provision of medical services.

Conference Series LLC LTD Telemedicine conferences would offer a powerful global forum to encourage talk on the advancements related to prevention, cure and rehabilitation of telemedicine related diseases. Telemedicine and Digital Health is now being extensively used in medical and health care sectors; Thus, telemedicine and medical informatics are expected to grow at a high rate in coming years, which is expected to boost the growth of the medical are technology.83% of healthcare organizations responded to American Telemedicine Association. They are likely to invest in telehealth with operational efficiency and convenience in mind. 171 healthcare executives participating in the annual ATA Executive Leadership Survey, 88% are likely to purchase telehealth tools by 2017. In 2013 the m health valued at \$ 2.4 billion in global revenues.it is estimated that by 2018 it will reach \$21.5 billion. By 2018 the Europe will be the largest m health market worth \$7.1 billion with the highest predicted growth per year at 61.6%. Over 300 studies have been completed over the past 5 years.

In Singapore, two-thirds (64%) of healthcare professionals currently use some form of connected care technology for diagnosis, treatment or management of their patients' conditions, according to our Future Health Index (FHI). This rate is higher compared to developed nations like the United States of America (46%), Germany (45%) and France (40%).

The growing adoption of telehealth is also driven by an ever more connected general population who is increasingly more prepared to embrace technology to improve their healthcare. Our 2018 FHI report found that in Singapore, half of the general population (50%) has used some form of connected care technology already to monitor health indicators such as weight, blood sugar levels, and medication intake.

Telemedicine revenue in top & emerging countries:

This statistic shows us the information on which country has the highest revenue from the telemedicine field.

shows the revenue growth and the telemedicine market growth in various specializations. The revenue growth will be rapid in the diabetes specialization in the year 2019 – 2020. It was also found that a total of about \$6 Billion can be used by the employers if they implement the telemedicine technology for their employees. Telemedicine also reduces the gap between the patient and the doctor this development is the main reason for the growth in the market value of the telemedicine.

Meetings. The Award will be given to the **best students, PhD candidates and early stage postdocs**. It rewards a combination of excellent research, innovation, and presentation. As the goal of this poster award is to foster the clear communication of scientific content also to non-specialists of the presented topic, the emphasis of the evaluation will be put on the attractiveness of the graphical representation and on the clarity of the text. Only posters which satisfy the communication criteria will be taken into consideration for the evaluation from a scientific point of view.

## **Guidelines for Best Poster Presentation – Best Poster Awards**

### **Benefits**

- This award will be provided to participants like student and recent graduates to present their original real-time work and share their views and aspects related to the theme of the conference.
- Award should motivate participants to strive to realize their full potential which could in turn be beneficial to the field as whole.

### **Eligibility**

- This competition is open to all students (Graduates, Post Graduates and Research Scholars).
- Abstracts have to be submitted through online or by email. Shortlisted abstracts for the competition will be intimated through email and those will be displayed on the website as well.
- If the registered author/poster presenter is unable to attend the conference he/she may send a substitute who can be a co-author (or) any member from the same institution. If the winner is a substitute, he/she will be awarded and not the registered author/contestant.

### **Judging Criteria**

- The judgment will be done by Board of Jury.
- You will be given about 8-10 minutes to present your poster including questions and answers. Judges may pose questions during the evaluation of the poster.
- The winners will be announced at the closing ceremony of the conference. The decision of the winner will be withdrawn if the winner/winners is/are not present at the time of announcement.
